

KEEPIN' YOUR NEIGHBORHOOD CLEAN

SAMPLE

One day, Papa Truck took me to work with him.

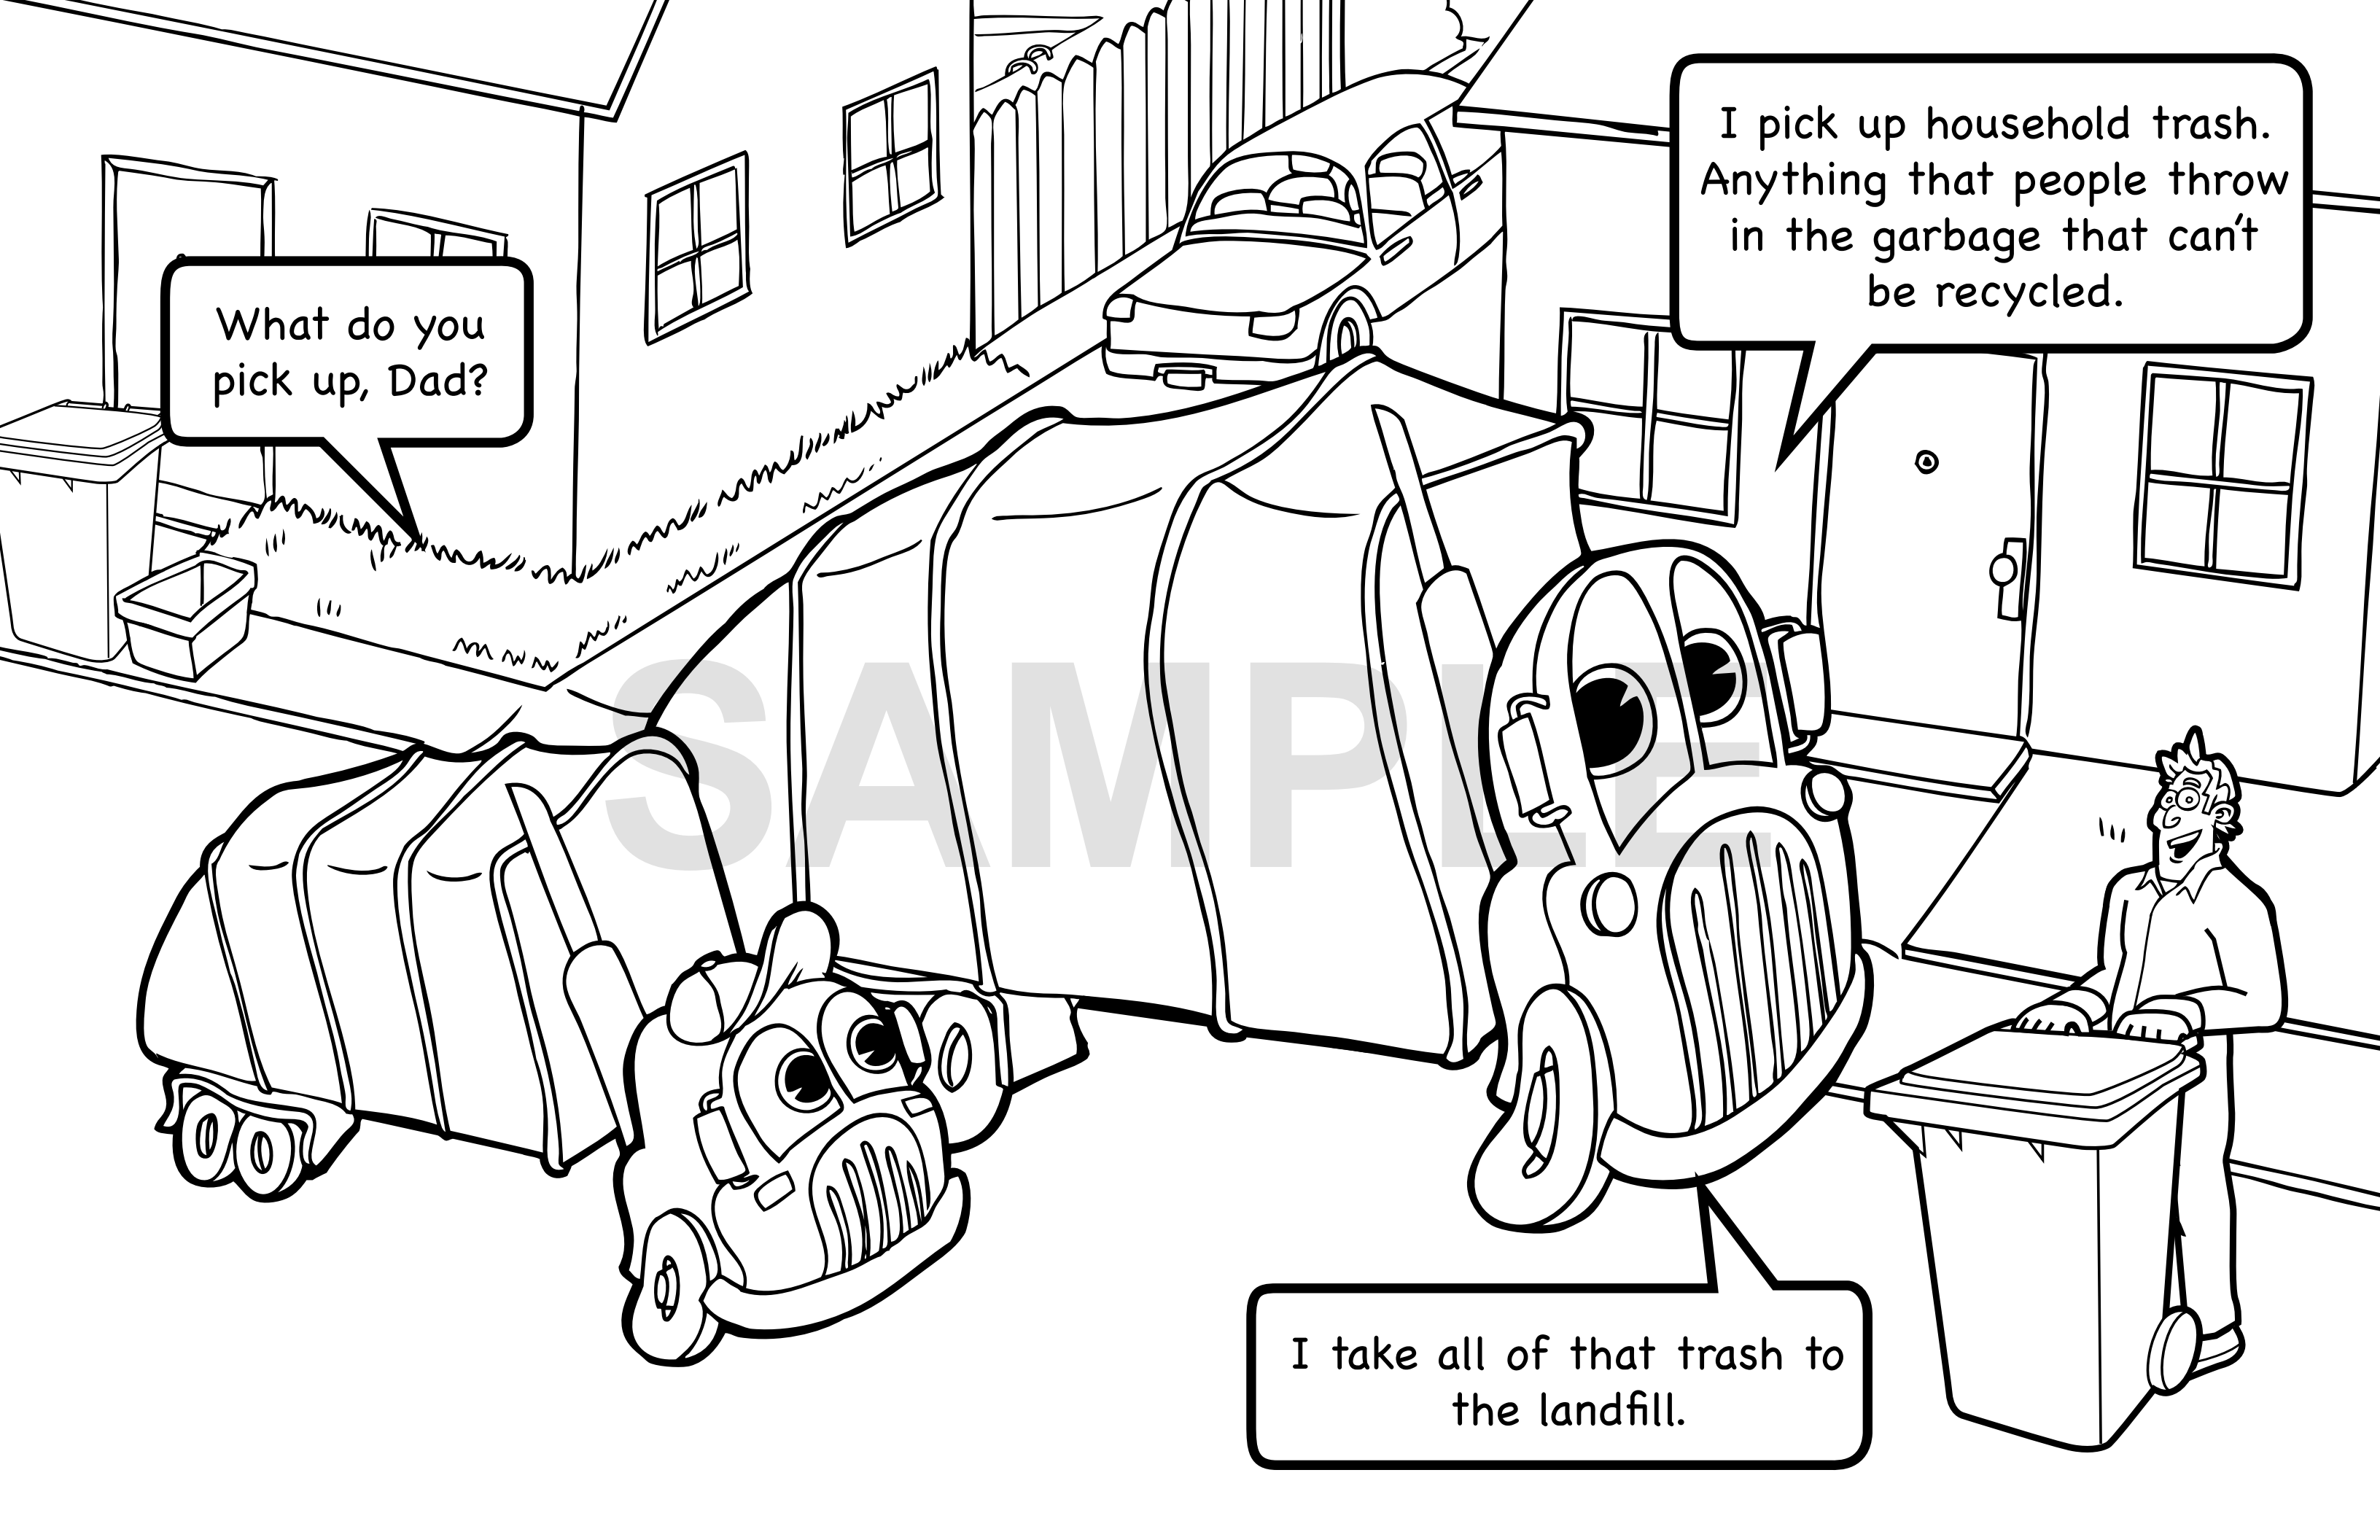

Soon it will be time to
decide what you want to
be when you grow up.

What kind of
job can I do?

EXIT
2 ➔

Any kind you want!
Do you want to see
what the trucks in
our family do?

You bet!

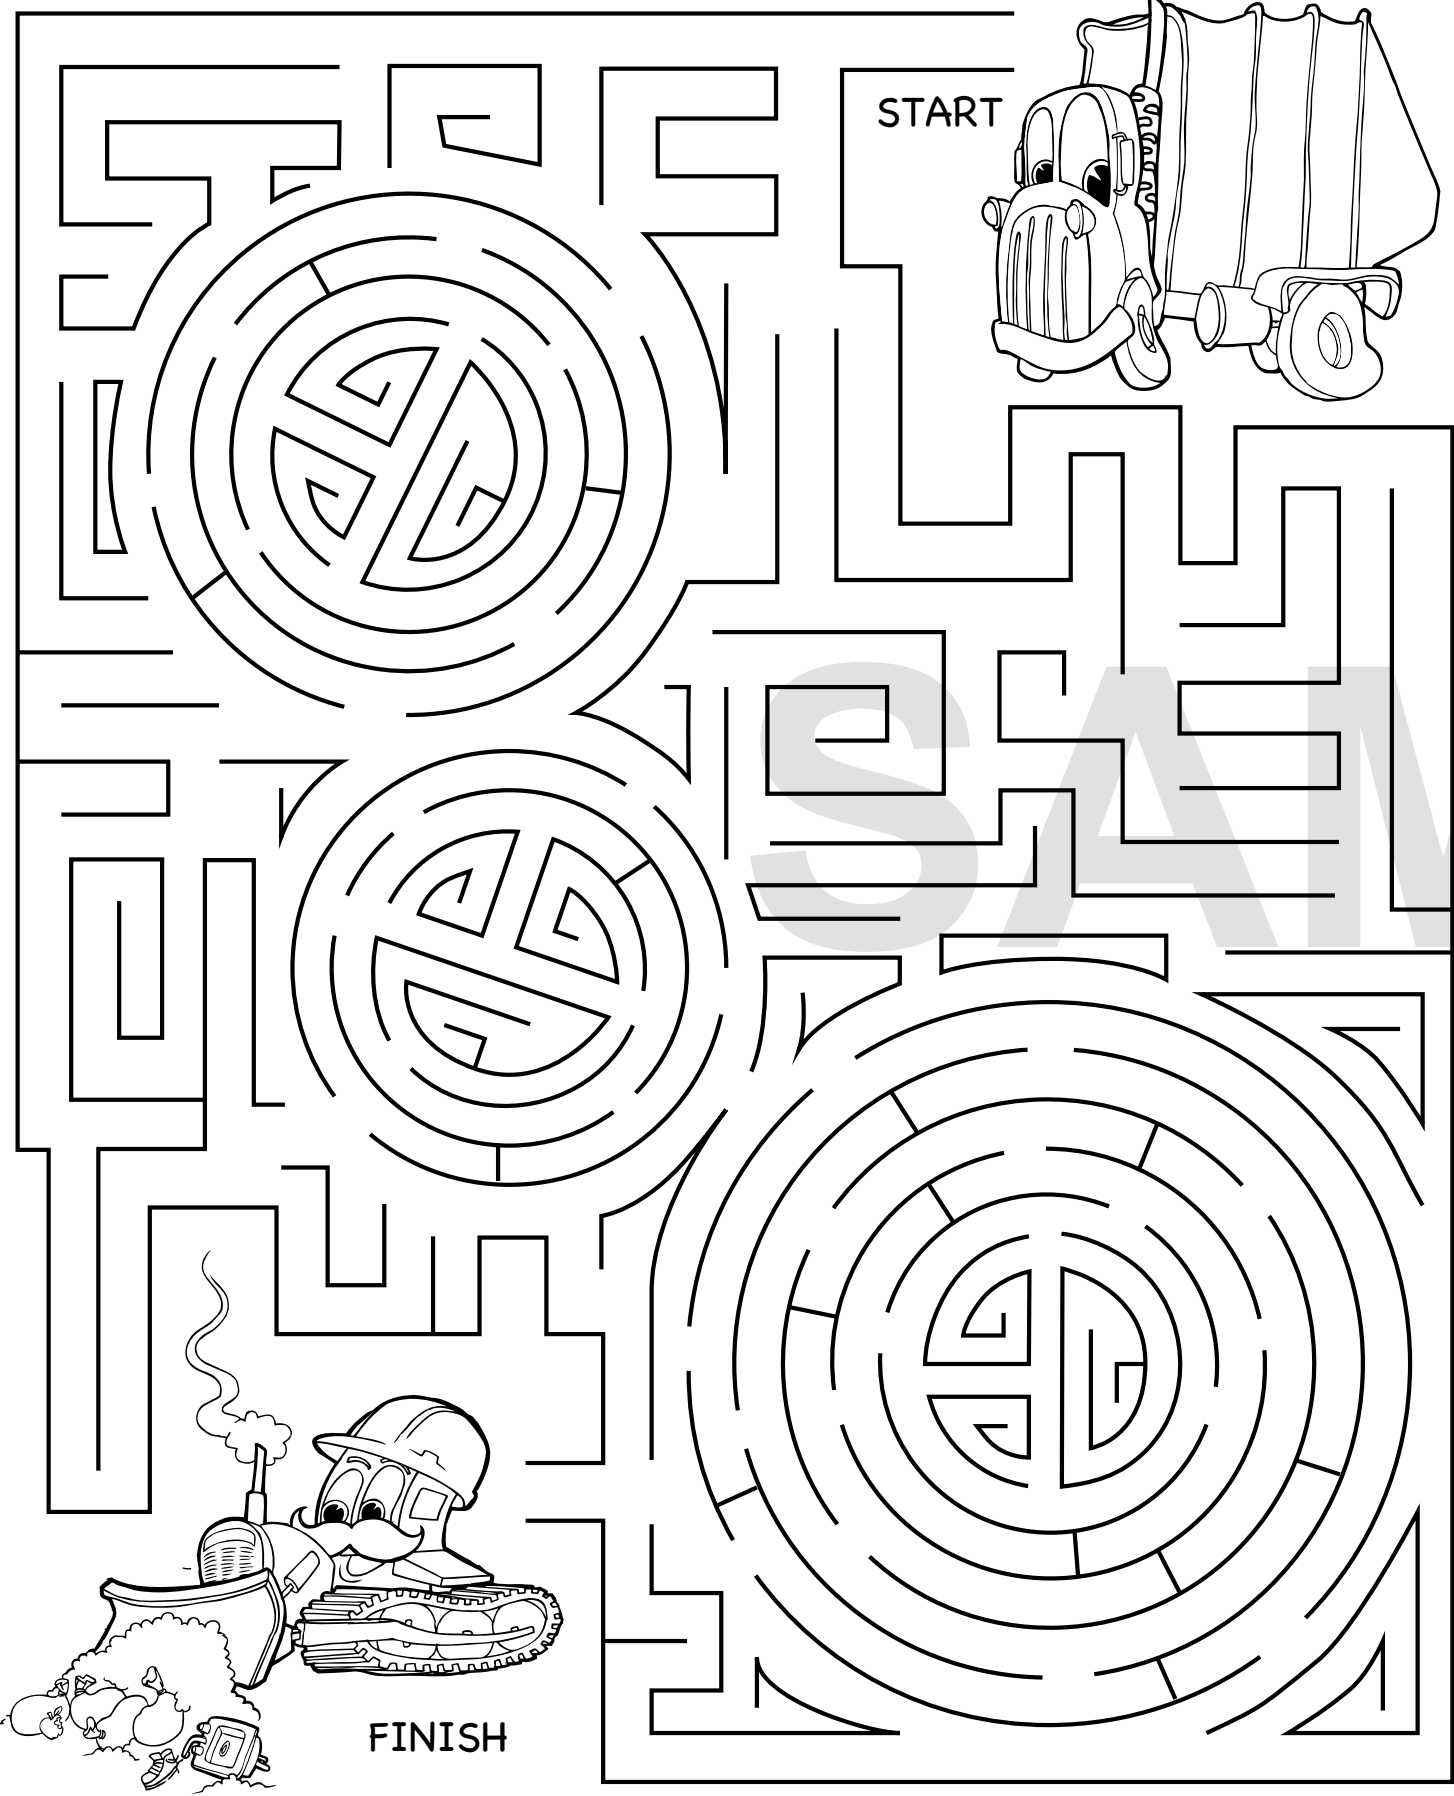

What do you
pick up, Dad?

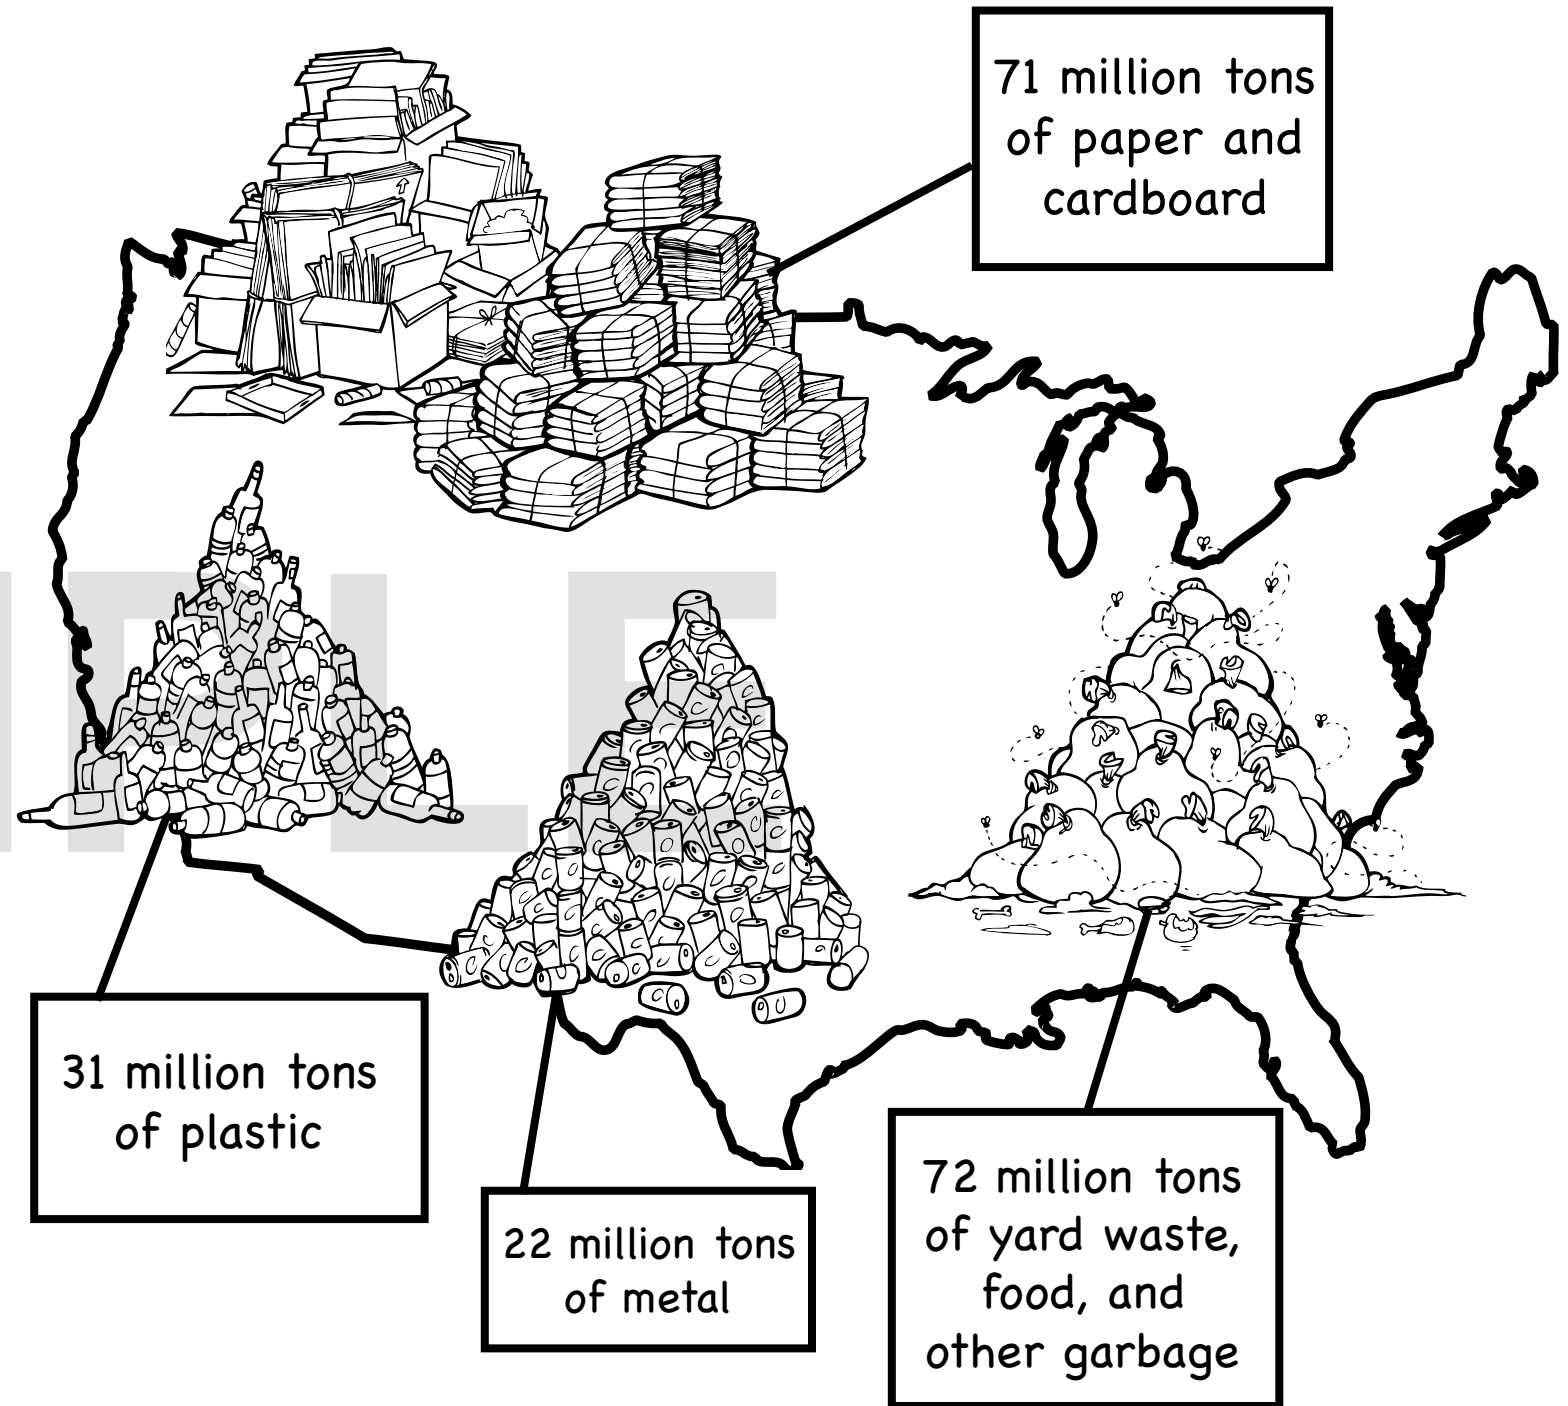

I pick up household trash.
Anything that people throw
in the garbage that can't
be recycled.

I take all of that trash to
the landfill.

Can you help Papa get the trash to the landfill?

Every year, we produce MILLIONS of TONS of trash!

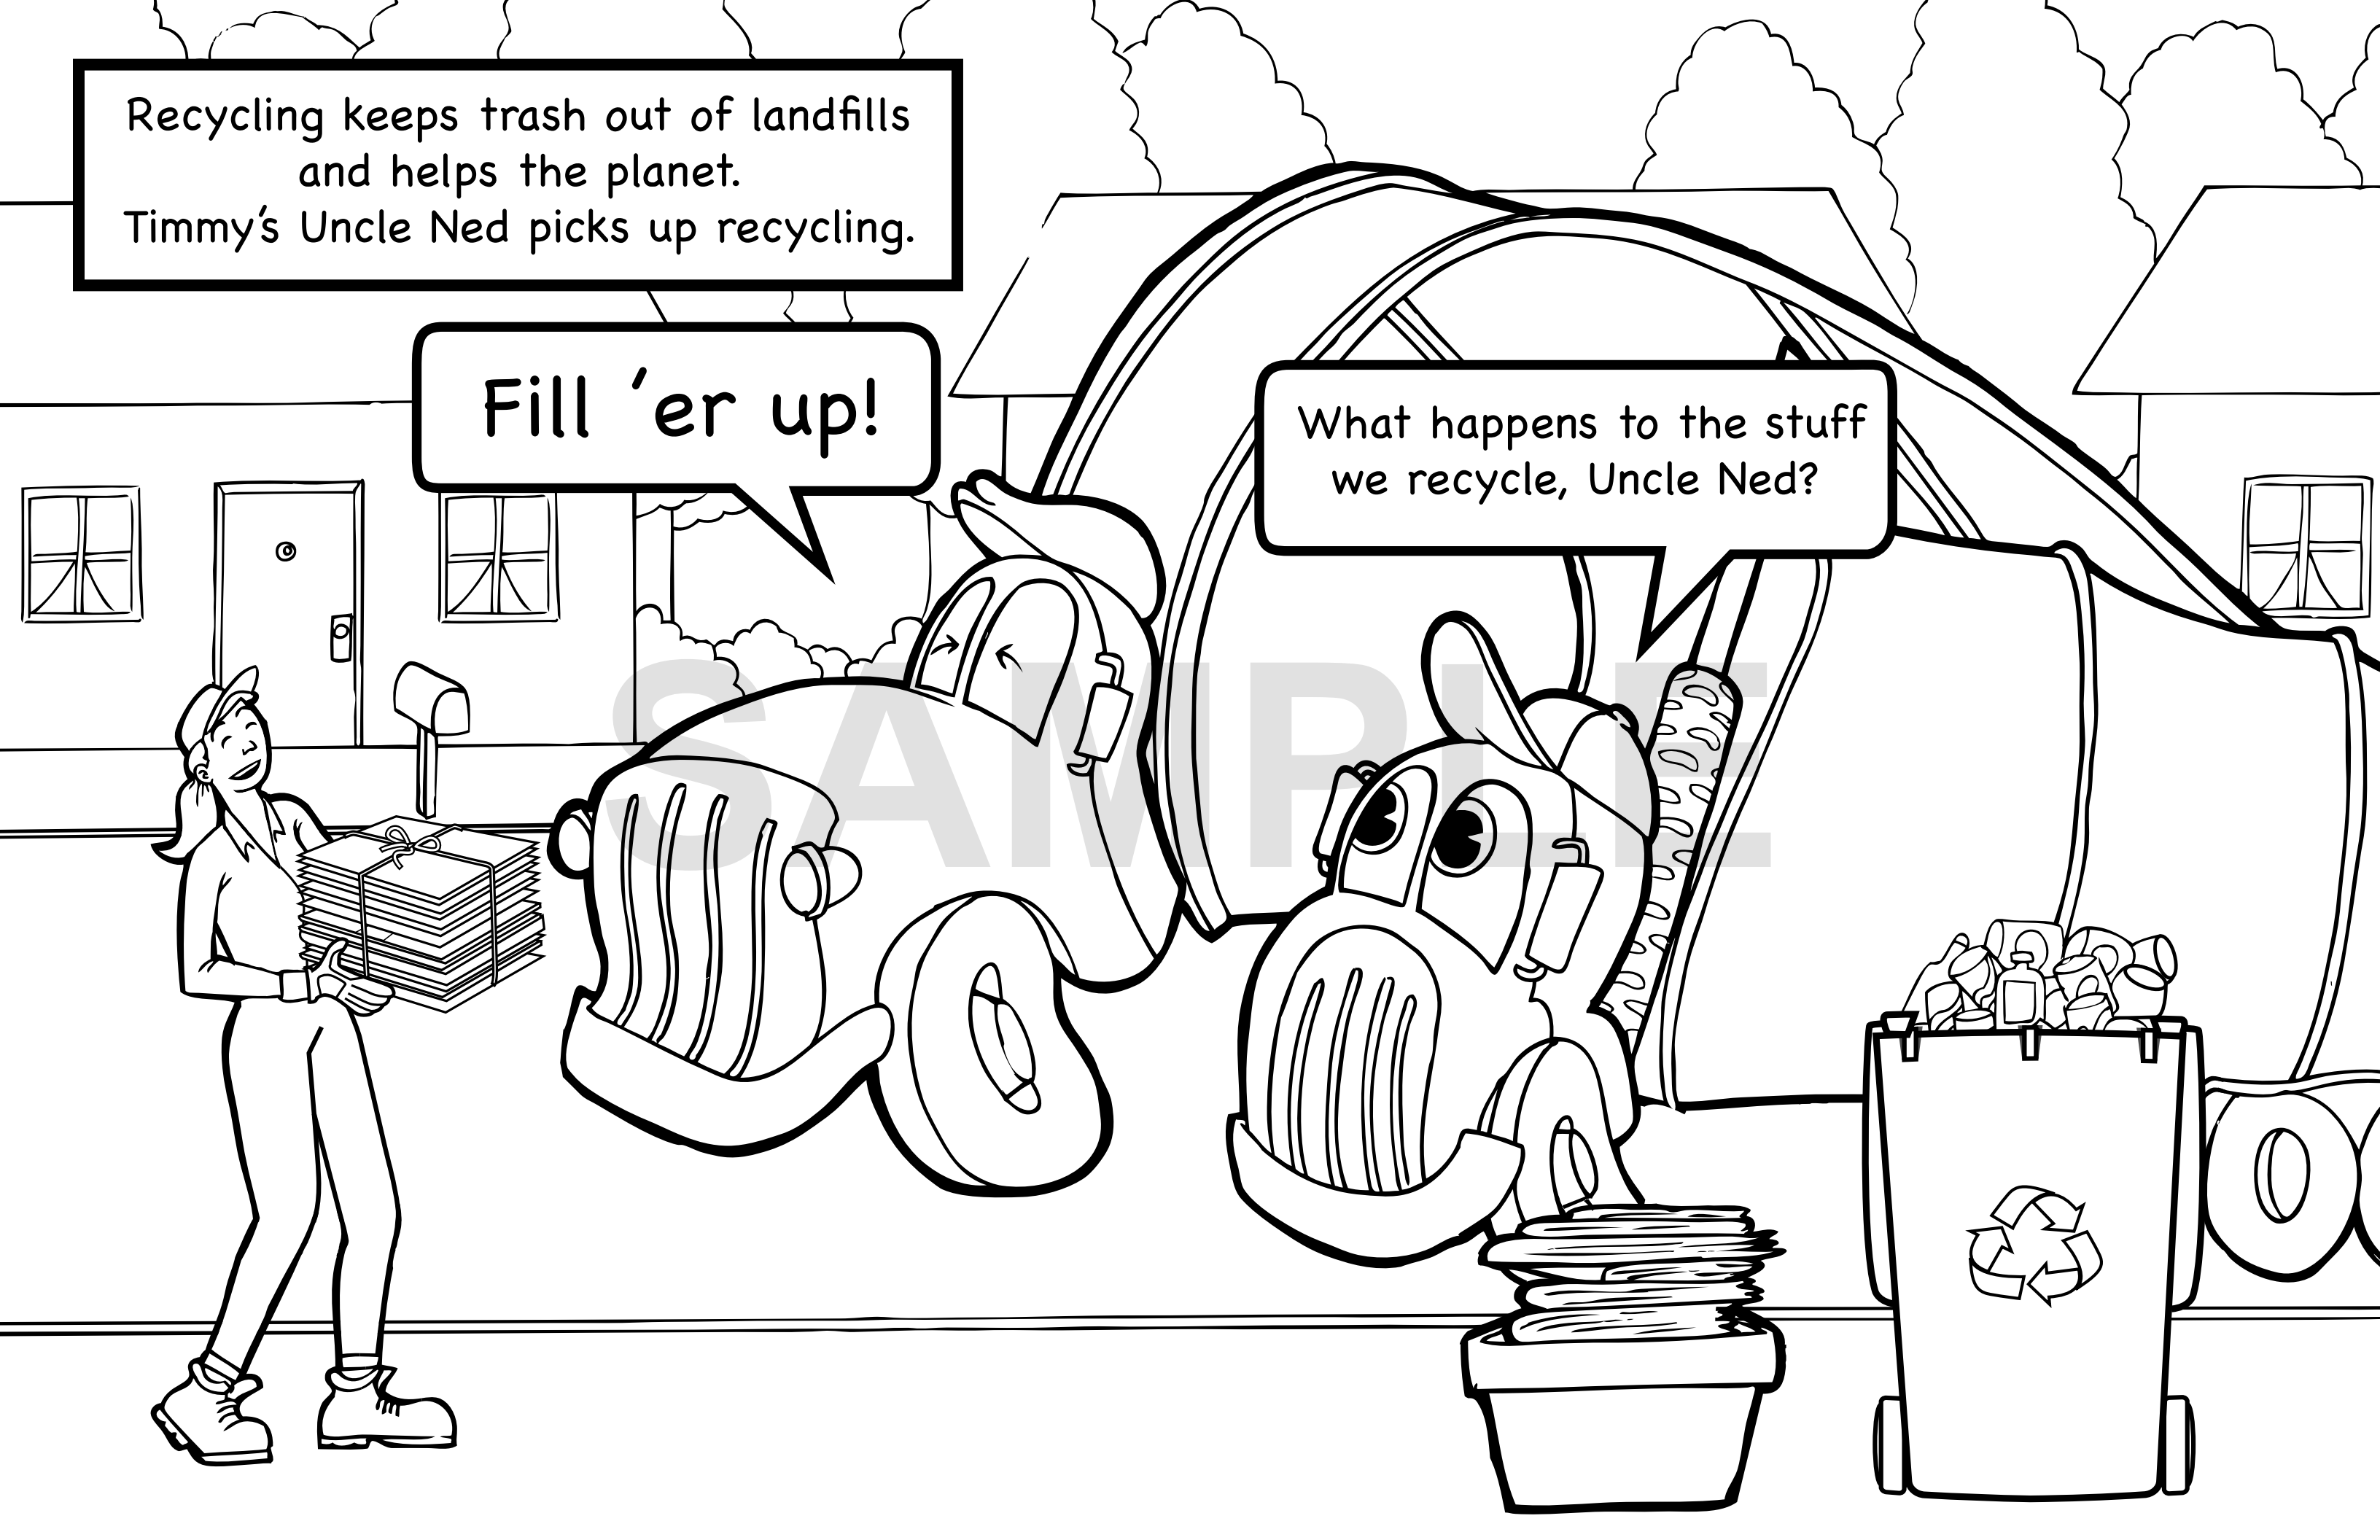

Landfills can't hold all of that trash. That's why it's important to recycle.

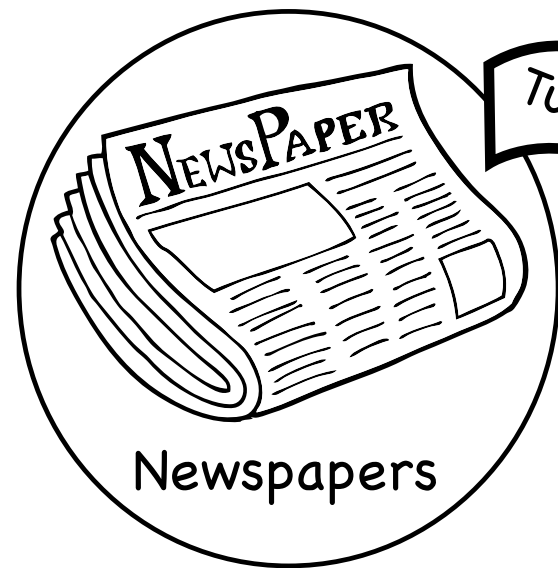

Recycling keeps trash out of landfills
and helps the planet.
Timmy's Uncle Ned picks up recycling.

Fill 'er up!

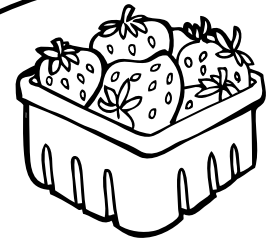

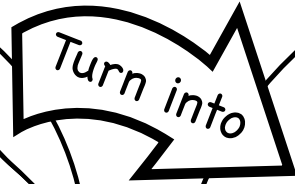

What happens to the stuff
we recycle, Uncle Ned?

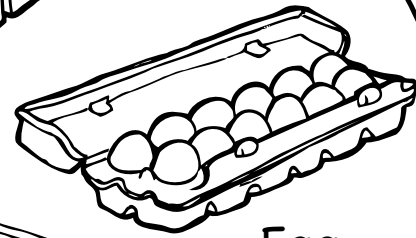

When we recycle, our old things get turned into new and useful things.

Newspapers

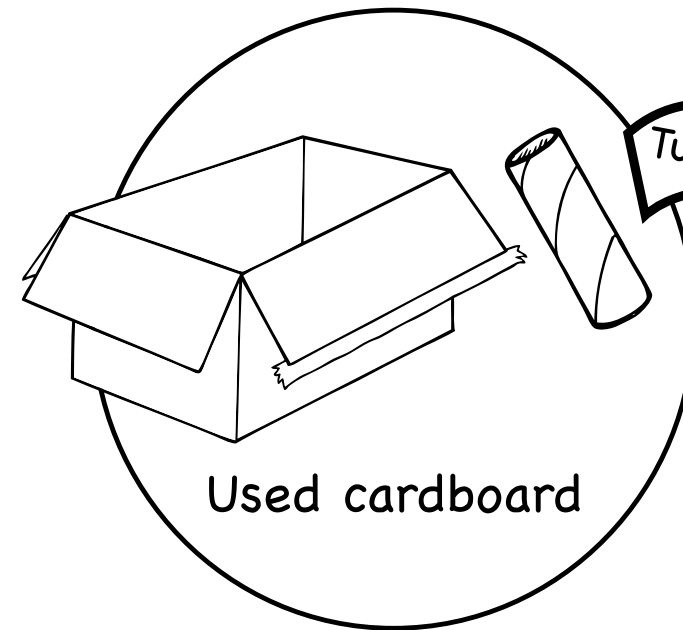

Berry boxes

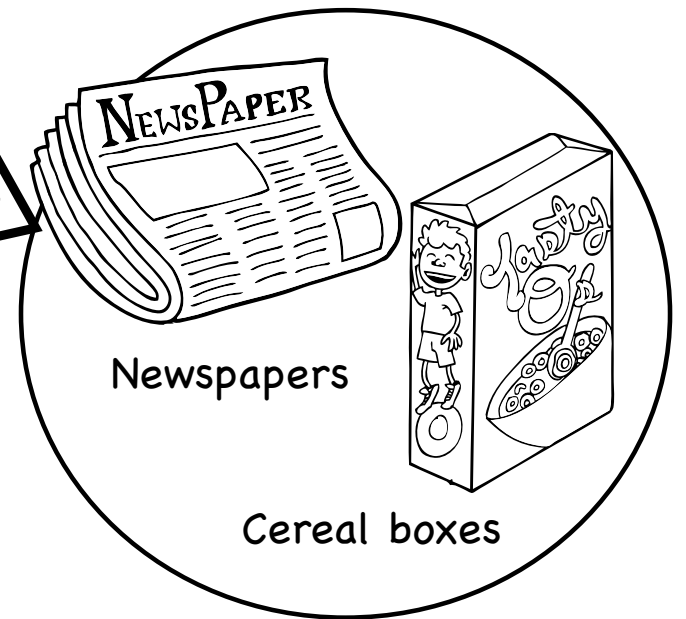

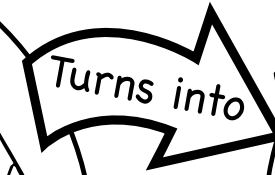

Egg cartons

Kitty litter

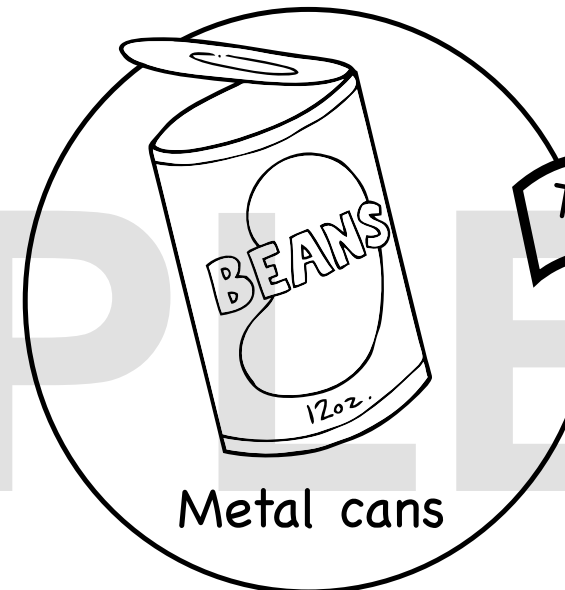

Used cardboard

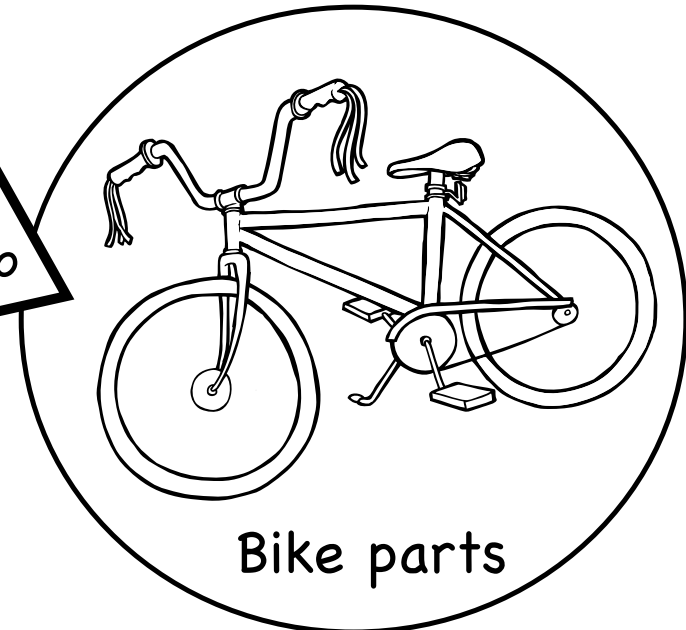

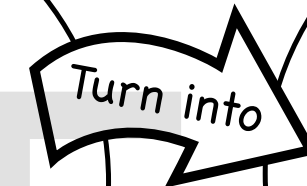

Newspapers

Cereal boxes

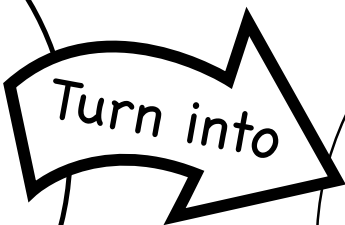

Metal cans

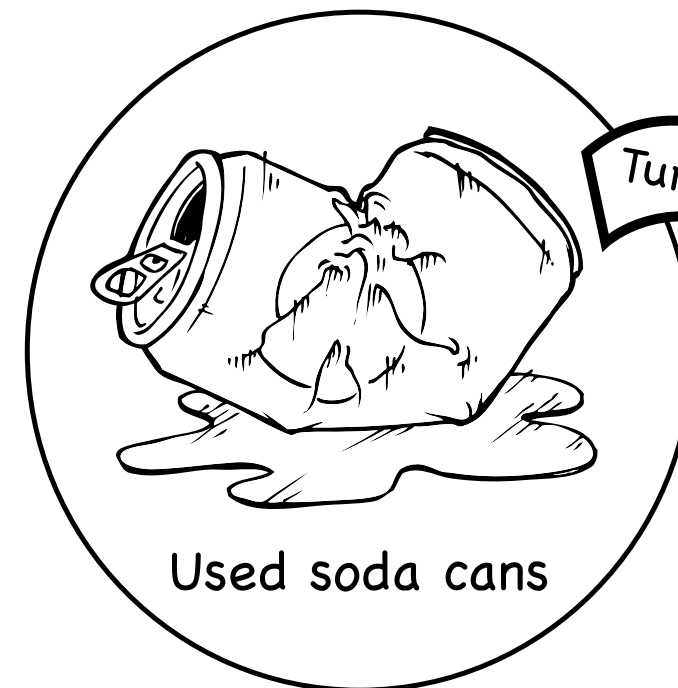

Bike parts

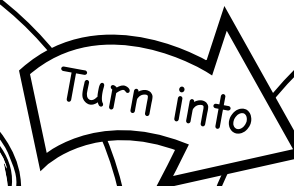

Plastic bottles

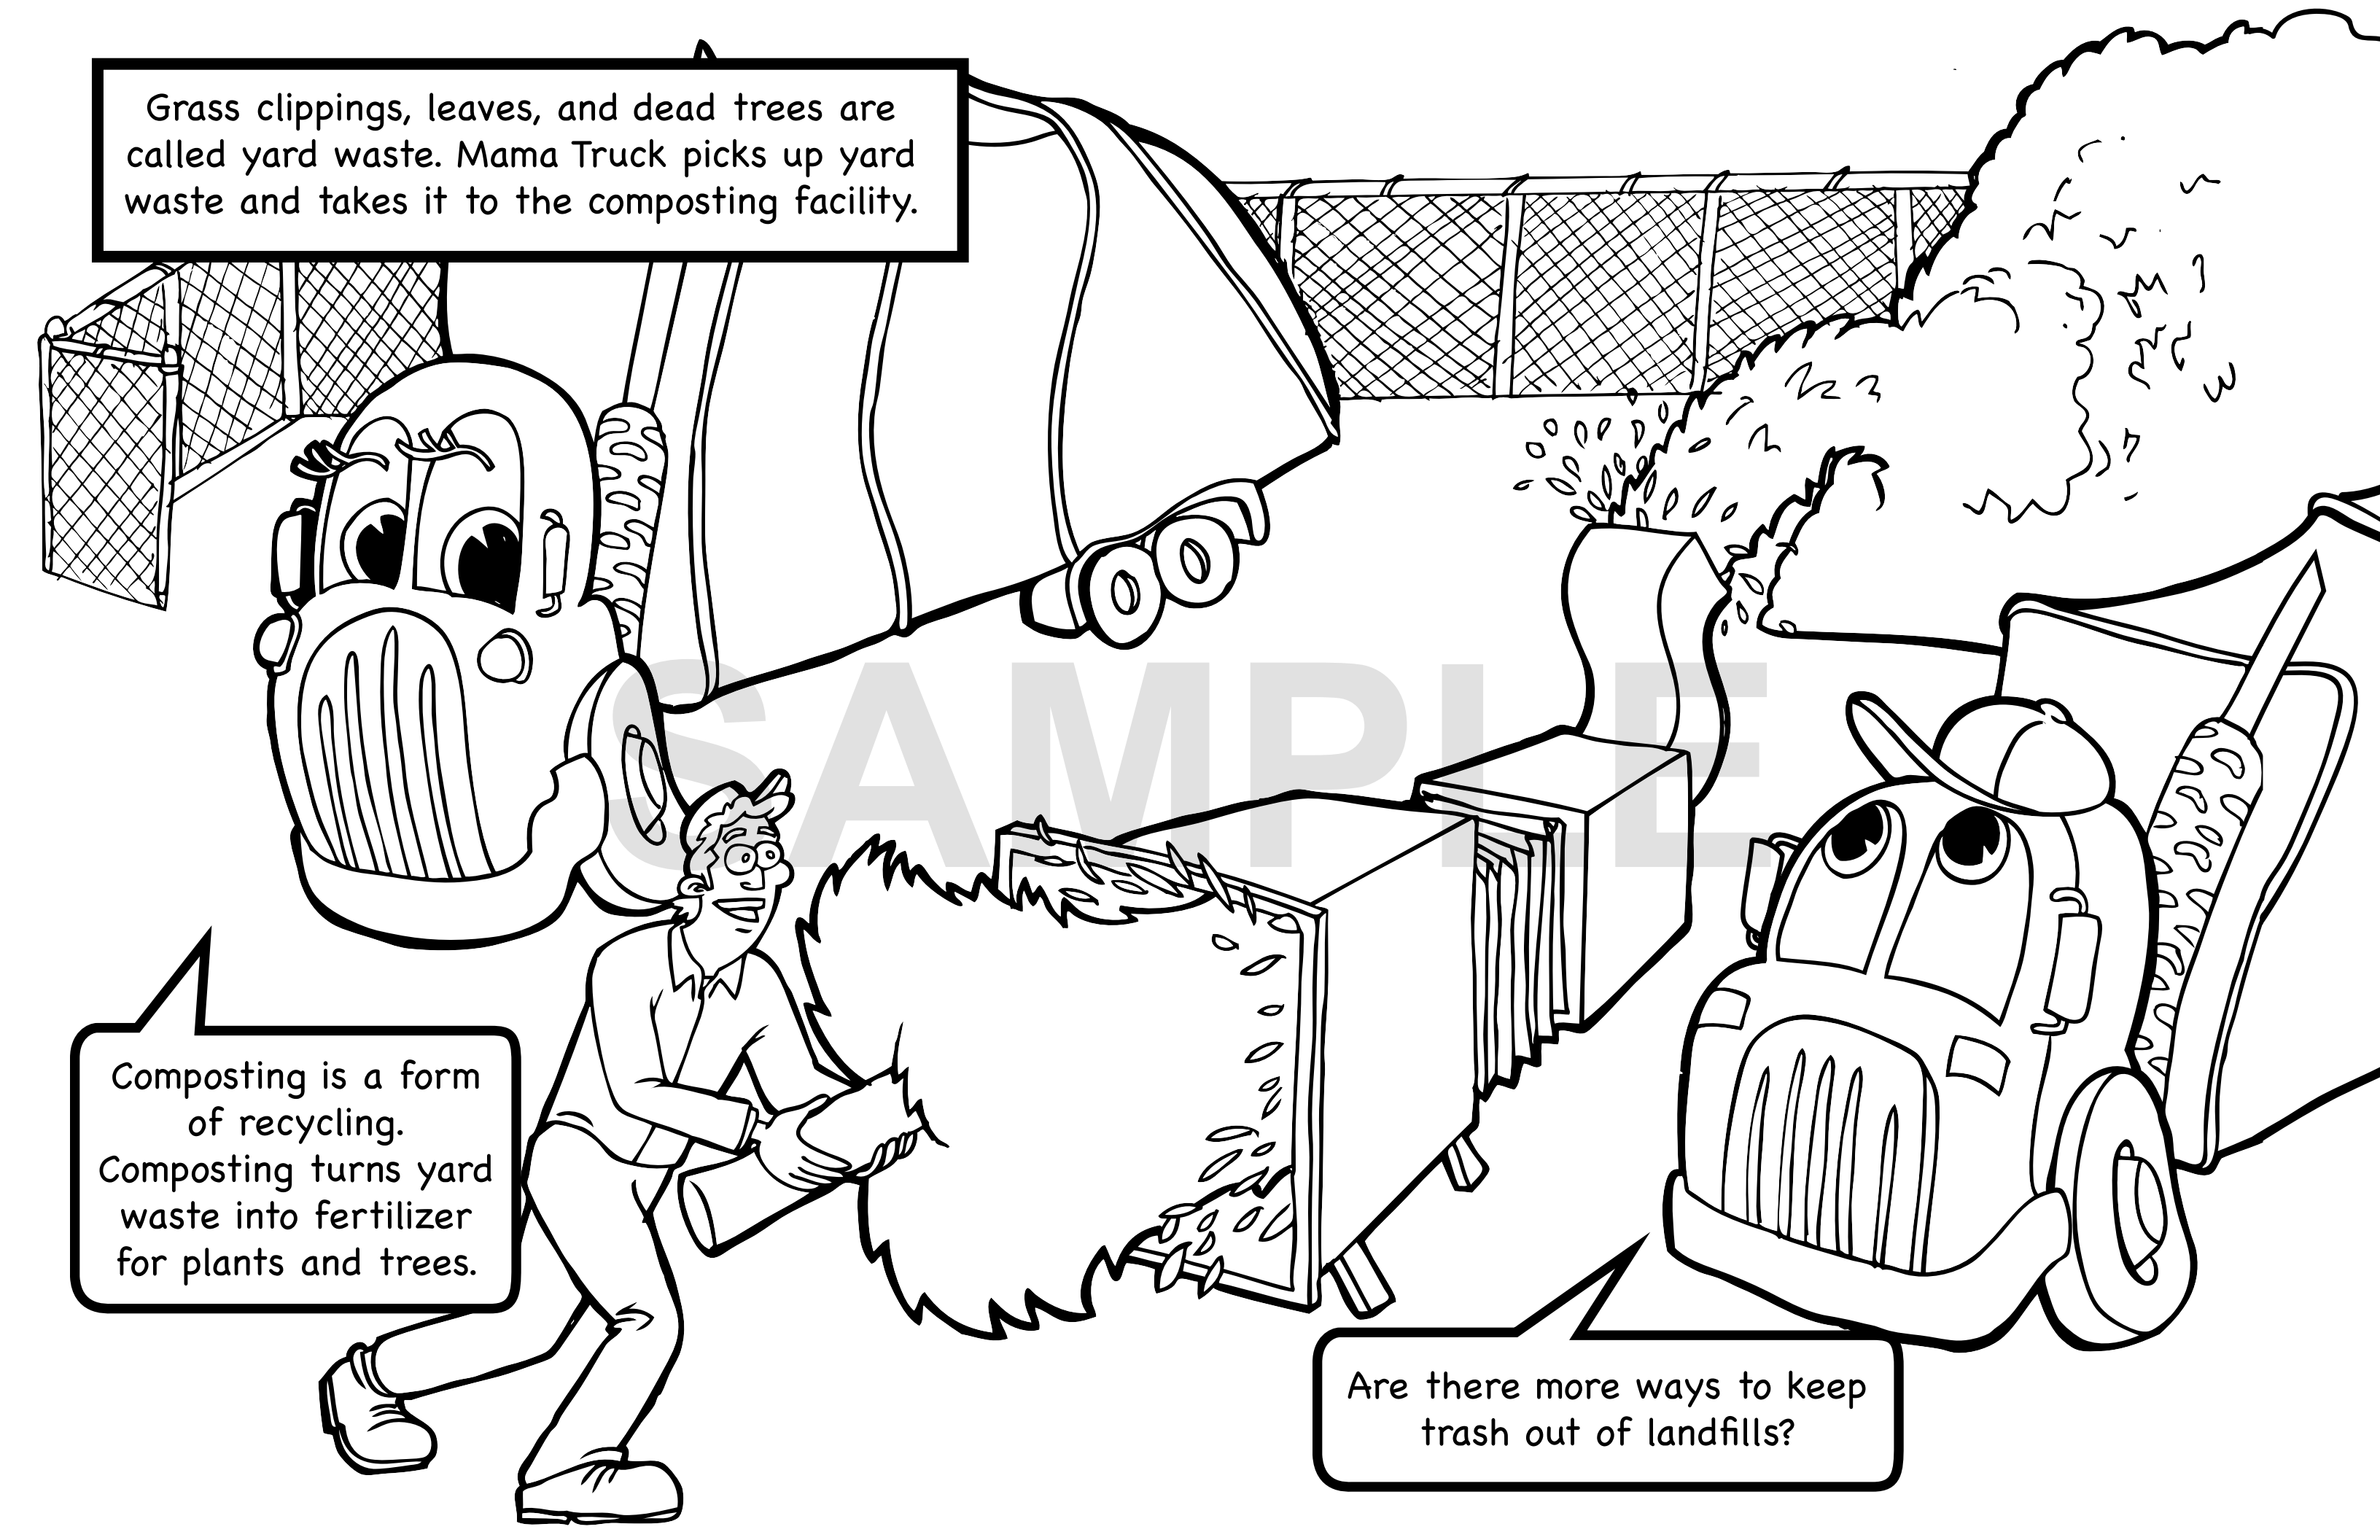

Jackets

Used soda cans

New soda cans

Grass clippings, leaves, and dead trees are called yard waste. Mama Truck picks up yard waste and takes it to the composting facility.

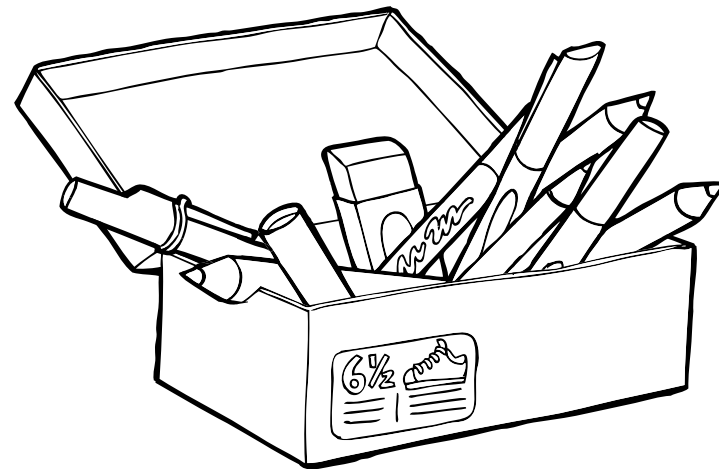

Composting is a form of recycling. Composting turns yard waste into fertilizer for plants and trees.

Are there more ways to keep trash out of landfills?

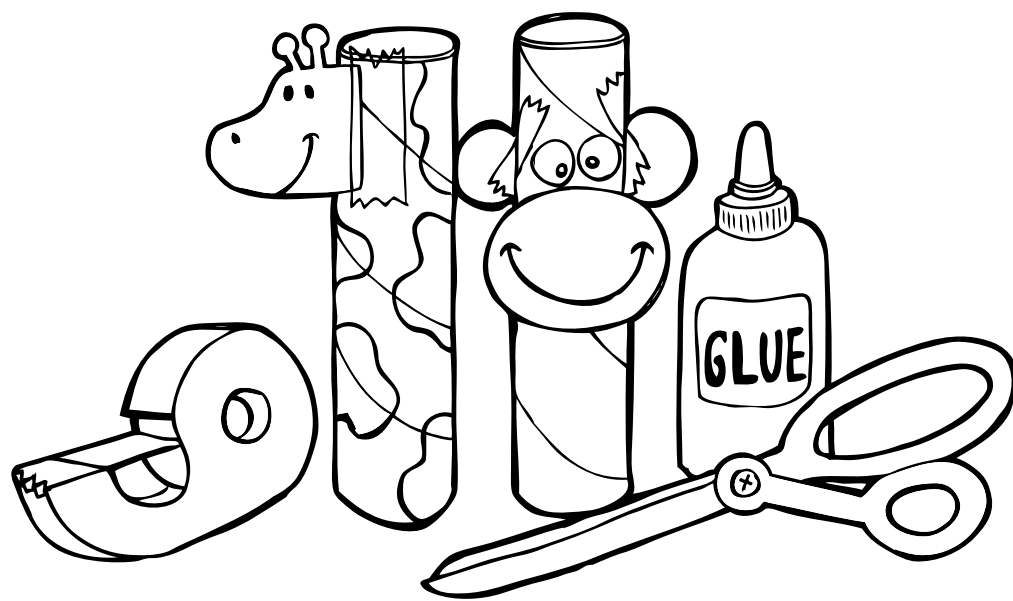

There are lots of ways to reduce the amount of stuff we throw out. Here are a few:

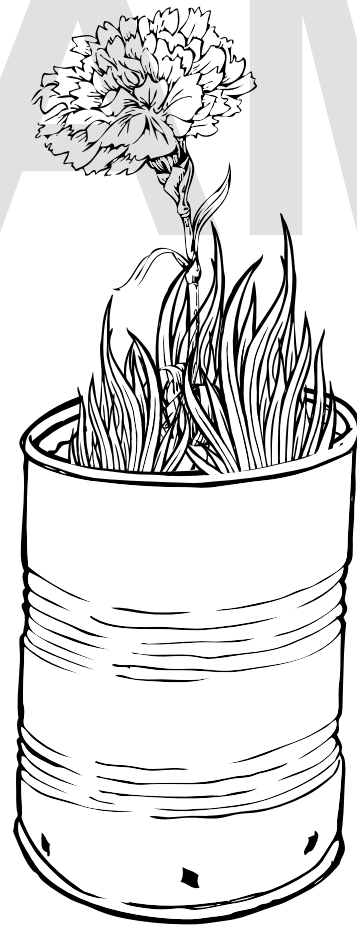

Bring old clothes to a thrift store!

Use a shoebox to store school supplies!

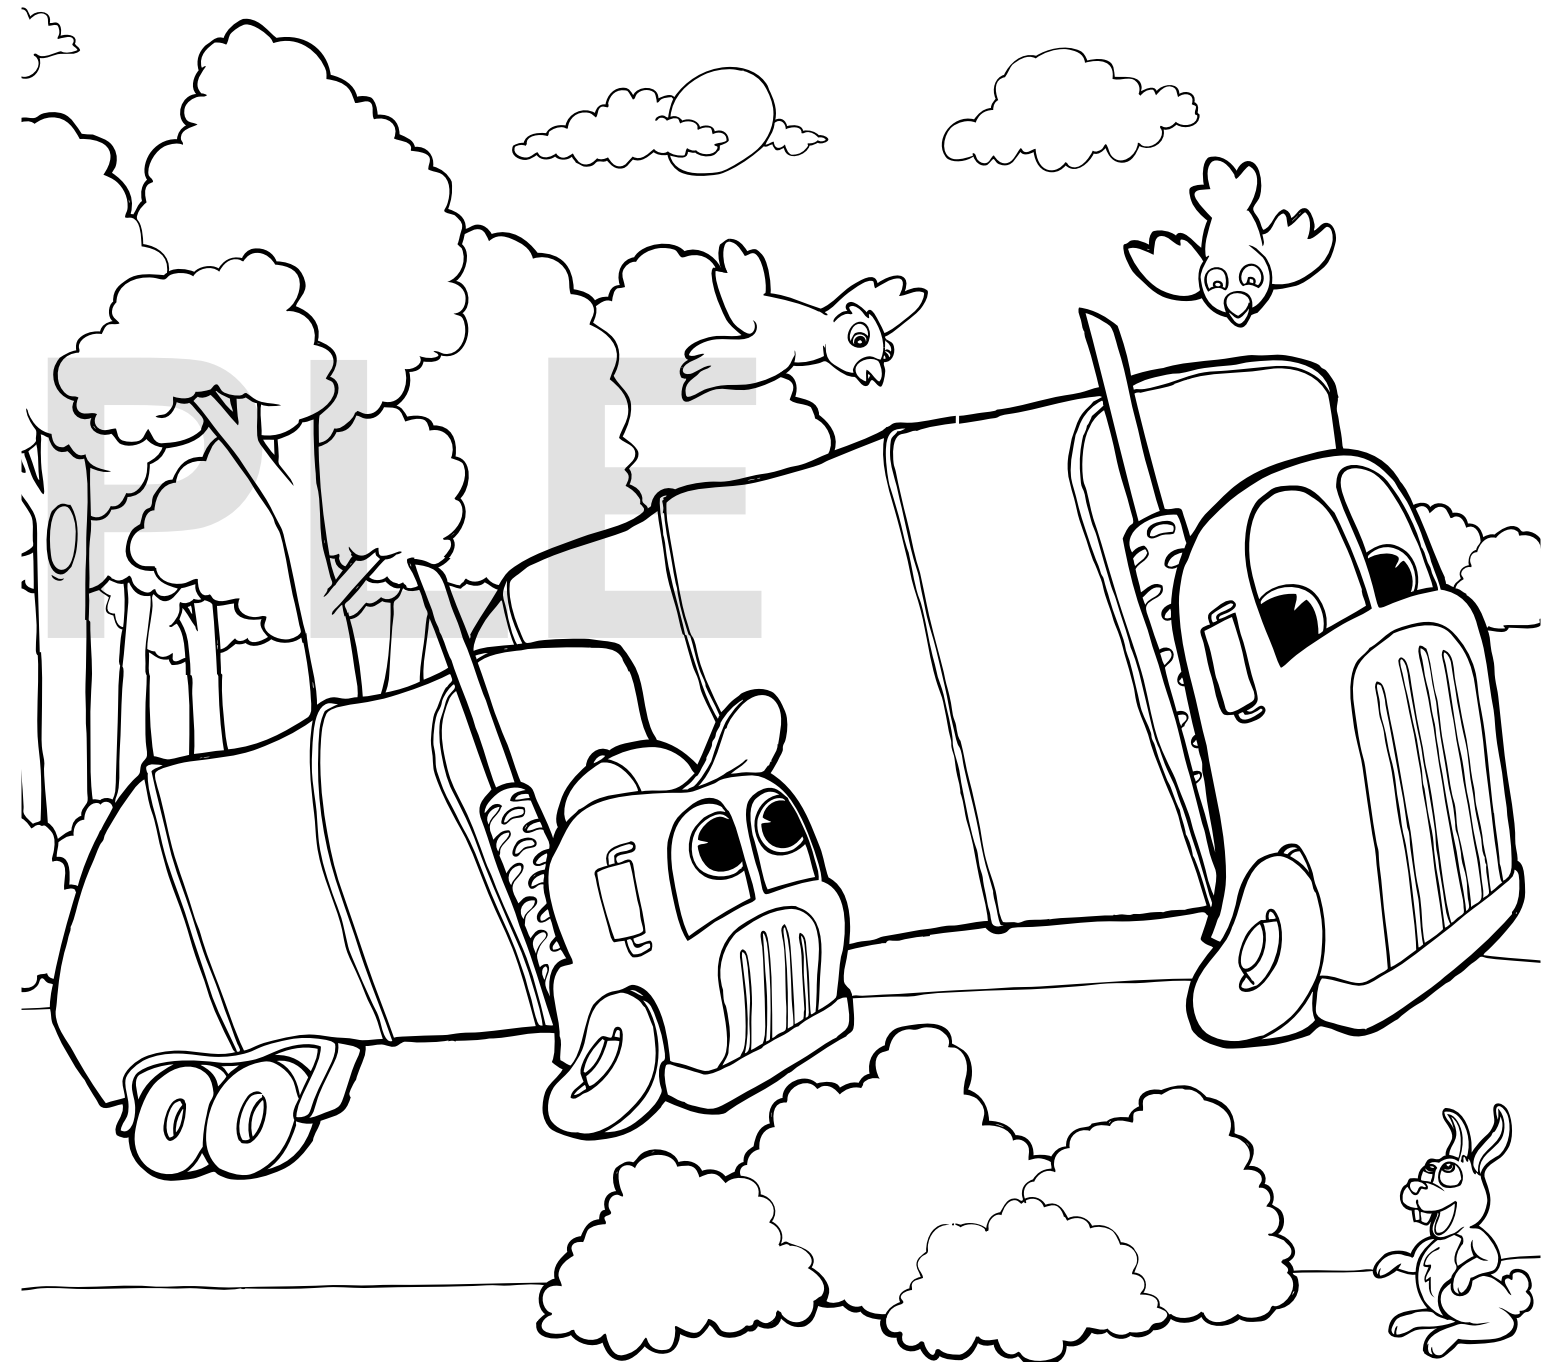

Make art out of used paper towel rolls!

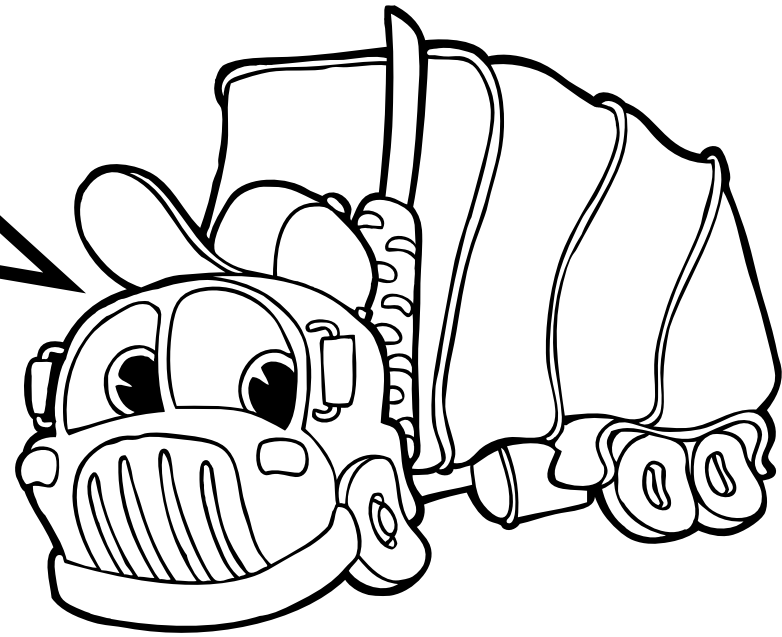

Use a tin can as a flower planter!

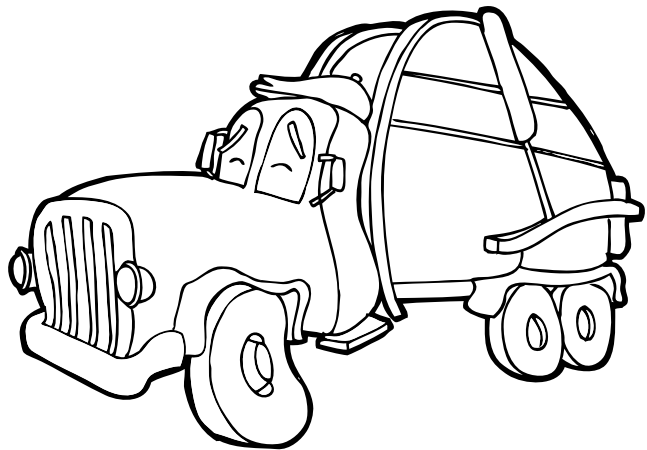

So what kind of truck do you want to be, Timmy?

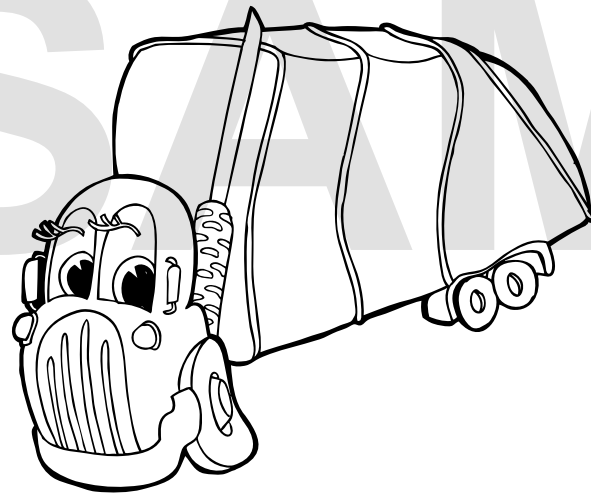

After I thought about what everyone said, I decided I want to be a recycling truck! That way I can help keep trash out of landfills!

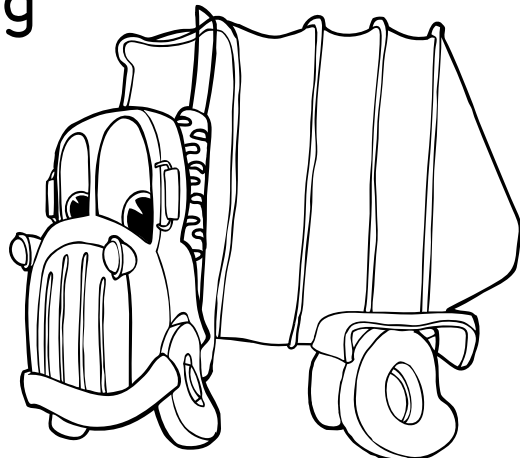

What kind of truck would you be?

Recycling

Composting

Sanitation
