

**POWER UP
WITH THE**

EV TEAM

Electric vehicles
come in all shapes
and sizes!

There are electric
cars, trucks,
motorcycles, and
scooters.

There are even
boats and airplanes
powered by
electricity!

EVs store power in
batteries, which get
plugged in to charge.

You can charge an
EV's battery from
your home or garage.

There are also EV
charging stations in
places like parking
spaces.

Keep an eye out
for them!

**Electric Vehicles
Are Incredible!**
