

WATER SAVING TIPS

**BE A LEAK
DETECTIVE!**

**TURN OFF
THE WATER
WHEN YOU
BRUSH!**

Be a Leak Detective

Look for dripping faucets in the kitchen and bathroom sinks. Check the tub and shower. If you find a leak, go tell your parents so they can get it fixed!

Turn off the Water When You Brush Your Teeth

You can save 8 gallons of water a day!

Take a Speed Shower

Time how long you're in the shower, then try to beat your record! Every minute you save equals 4 gallons of water.
